CarOrganizer Crack is a useful tool that offers comprehensive instruments for keeping a record of mileage, fuel consumption and expenses. Its user-friendly interface makes it a convenient application meant to help you monitor and calculate your vehicles' requirements. Car database The application supports multiple car profiles, so you can monitor the technical requirements for several vehicles. Just enter data about the date of the refuel, the mileage and the cost. CarOrganizer Serial Key can display the data as a table and calculate the best consumption, worst consumption as well as the average value of liters per 100 km. You can change the measuring system, if you are more comfortable estimating miles instead of kilometers or gallons instead of liters. Similarly, if you can choose to evaluate your costs in several currencies, that can easily be customized. The base currency is the Euro, but you can enter many others, by simply selecting the name and the exchange rate. Evaluation tools As you enter data about the gas consumption rate and the afferent expenses, the application can automatically calculate the average gas requirement as well as the median or total costs. You can view the processed data as a bar graph or a pie chart report. These record sheets can be printed as well as exported, in CSV and image file format, for further analysis or storage. Not only can you can keep track of your average fuel consumption, but you can also monitor your car's mileage and compare performances of one or all cars. The statistical data presented in the reports corresponds to a user-selected time period, which means the application allows you to analyze very specific data. You can evaluate the car's consumption in one trip, for example, Driver's log Along with the appraisal tools, CarOrganizer Free Download offers a driver's log function, where you can store data about trips, such as distance, duration, departure and arrival point.
