What's New in the DSH Lyrics Grabber?

DSH Lyrics Grabber is a program to grab lyrics from Internet. It can download lyrics from or any other site where lyrics are available. It can download lyrics from many websites simultaneously There are 2 main modules: a lyrics cache module (you can configure the Lyrics to be saved on your hard disk) and the lyrics grabber. The download speed can be adjusted from every network/Internet connection you have. It's a big song database, containing lyrics from different sites! All sites which contain lyrics are listed in the main window. You can choose to display only the Lyrics that you want or filter the lyrics by any search criteria you wish. You can also display the corresponding info like the lyrics, the music, the artist or the video. You can also download images from the sites. You can configure the download speed from "1 MB / s - 1 GB / s". There is a popup. You can hide the list or close the list with the button. You can also save the lyrics on your hard disk. You can also download lyrics by direct link. You can configure the download size from "1 MB - 1 GB". There are the standard (Configure Download Size) and the optional settings (Settings). There are the "List", "Options", "Download" and "Tools" buttons. There are two options: Download by direct link and Download by URL. The Download by direct link will download the lyrics without using the download manager. The Download by URL will download the lyrics via a download manager. You can also select a file to save

the lyrics on. The "Tools" button displays the following tools: ⍰ Lyrics list (see the description) ⍰ Details list (see the description) ⍰ Search field ⍰ Download manager ⍰ The play button (see the description) ⍰ Preferences ⍰ FAQ ⍰ Don't show this again Please have a look at this video: Optional: ⍰ Search field ⍰ Preferences ⍰ Don't show this again Licence: GNU General Public License ⍰ The Source Code can be downloaded from Don't hesitate to send us a bug report or a suggestion. We are very open-minded
